Project Name	Inventory Management for Retailers
Maximum Marks	4 Marks

Solution Architecture:

A complicated process with numerous sub-processes, solution architecture connects business issues with technological solutions. Its objectives are to

➢ Find the best technological solution to address current company issues.

➢ Describe to project stakeholders the software's structure, features, behavior, and other features.

➢ Define the solution's requirements,development stages and features.

➢ Give details on how the solution is to be defined, managed and delivered.
